**DESFORMA.**  
**IMPOSSIBLE WAS YESTERDAY.**

DESFORMA furniture is aimed at those creating the exceptional, modern and elegant design for private and public applications: homes, offices, hotels, restaurants, cafeterias, bars or nightclubs. This is unique furniture radically different from the traditional mass produced offerings. A line of wave engulfing the amazing forms creates the impression of exceptionality. Aesthetically appealing, promising a cosy and warm environment, DESFORMA furniture allures by their mystery, is comfortable and durable.

**None equal in the world.**

In 2004 a completely new technology for the manufacture of soft furniture was invented, and the first examples of the unique spherical construction were made. The invention was patented and implemented in manufacture. The newly created furniture immediately gained huge attention from interior designers, decorators and other people with exquisite taste.

**Handmade.**

It is pleasant to work with nice, new, surprising and mysterious things. The newly created and patented technology for the manufacture of soft non-standard furniture and perfect handwork allows for the creation of furniture which looks good from every perspective, like unique pieces of art. This furniture can be exposed in the most prominent spot of an exposition hall. They will always find a suitable place in the interior of individualised home.

**Comfort and longevity.**

It seems unbelievable, but the framework of this unique spherically structured furniture is made of pure wood without using polyurethane mass, and therefore the furniture is especially stable and durable. When using such furniture, convex shapes harmonizes with the contours of your body, ensuring leisure and full comfort.

**Only top quality materials.**

Furniture is upholstered only with the highest quality *Suède* textile and natural leather.

**Stay noticed and trendy!**

Create your style by selecting DESFORMA furniture of various shapes, models and colours, and combine them thus making your interior unique. Wide pallet of material and leather colours will help you to create harmony with the interior details of any colour.
